Chapter/Area: Ch 1, area 10

Category (Joint, ARNG, ANG): Joint

Type Resolution - Update/change

Relating To- Space – A travel

Background -

The Reserve Components have become an Operational Reserve. Both Guard and Reserve have become as active as the Active Component. Although Space-A travel is by current regulations authorized for reserve component members and their dependents, the Secretary of Defense and as a result the Department of Defense (DoD) has not made RC-Space-A travel a priority. Therefore Space A- travel is not available for drilling Guard and Reservists.

Proposed Recommendation -

- Request EANGUS and 116th Congress to demand DOD to amend regulations to allow Space-A travel for Reserve Component members at the same level as the Active Component.
